Interactive Microfinance: Problematization and an Analytical Framework 2014-07-27

The role of microfinance institutions in poverty alleviation and environmental conservation in East Java, Indonesia, Bangladesh is considered as an essential component of any compulsory development strategy. Microfinance institutions, in particular, have been gradually realigned to strategic realities. This is particularly evident in the relative decline of poverty and increased in the level of environmental conservation and poverty alleviation. The role of microfinance institutions in poverty alleviation and environmental conservation is not merely a matter of traditional economic policies, but a matter of a more profound understanding of environmental and poverty alleviation policies, particularly in the context of microfinance institutions among public and private entities, particularly in Pakistan. Moreover, microfinance institutions and poverty alleviation policies, particularly in Pakistan, are not only focused on issues of poverty alleviation and environmental conservation, but also focus on issues of microfinance institutions and poverty alleviation policies, particularly in Pakistan.

Interactive Microfinance: Problematization and an Analytical Framework 2014-07-27

Economic Empowerment Of Women In The Islamic World: Theory And Practice - Toseef Azid 2020-06-22

This book cover the recent literature concerning Islamic banking and finance (IBF) for women. The book introduces the key concepts and practices in the field. The chapters cover important topics such as the role of ownership, Shari`ah compliance and governance structures in raising debt capital using IBF practices, including Fatwa issues and the use of benchmarking practices. The book also addresses topics like archival data, the influence of leverage on ownership structure, and sukuk structures, as well as accounting, taxonomic, challenges and opportunities in IBF. Finally, the book deals with prominent issues such as Islamic microfinance, Taulib Islamic Finance, IBF implications for block-chain-based fintech and finance hub concepts in Islamic microfinance models. This edited volume is an important contribution to the IBF research in Islamic finance and is a must-have book for anyone interested in the field of Islamic banking and finance.
