Nov 07, 2017 · Since French is spoken in 31 African countries known as Francophone Africa, French is essential to communicate and connect with many African countries, especially North and Western Africa. You will be able to establish and maintain personal and professional contacts. In an export-import business, you can explore a myriad of employment options after learning French in India.

Linguistics - Wikipedia
Linguistics is the scientific study of language. It encompasses the analysis of every aspect of language, as well as the methods for studying and modelling them. The traditional areas of linguistic analysis include phonetics, phonology, morphology, syntax, semantics, and pragmatics. Each of these areas roughly corresponds to phenomena found in human linguistic systems: sounds (and gesture, in

International Review of Applied Linguistics in Language
International Review of Applied Linguistics in Language Teaching (IRAL) is devoted to problems of general and applied linguistics in their various forms. IRAL's long-term interest lies in areas of research which concern first- and second-language acquisition (including sign language and gestural systems). Contributions are welcome on naturalistic and instructed language learning, language loss.
