The Scandal of the Century

Gabriel García Márquez 2019-05-14 "The articles and columns in The Scandal of the Century demonstrate that his forthright, lightly ironical voice just seemed to be there, right from the start . . . He's among those rare great fiction writers whose ancillary work is almost always worth finding . . . He had a way of connecting the souls in all his writing, fiction and nonfiction, to the melancholyly static of the universe." -Deept G Mayer, The New York Times From one of the giants of twentieth-century literature, collected here for the first time: a selection of his journalistic from the late 1940s to the mid 1980s—work that he considered even more important to his legacy than his universally acclaimed works of fiction. "I don't want to be remembered for One Hundred Years of Solitude or for the Nobel Prize, but for my journalism," Gabriel García Márquez said in the final years of his life. And while some of his journalistic writings have been made available over the years, this is the first volume to gather a representative selection from across the first four decades of his career—during which he worked as a full-time, often muckraking, and controversial journalist, even as he penned the fiction that would bring him the Nobel Prize in 1982. Here are the first pieces he wrote while working for the paper of his youth in the jungles of Cartagena and Barranquilla . . . his ever more fantastic reports from Paris and Rome . . . his monthly columns for Spain's El Pais. And while all the work points in style, wit, depth, and passion to his fiction, these fifty pieces are, more than anything, a revelation of the writer working at the profession he believed to be "the best in the world."
