- Lanolin is one of the most skin-loving ingredients.

**Umbilical cord abnormalities - March of Dimes**

The blood vessels, unprotected by the Wharton's jelly in the umbilical cord or the tissue in the placenta, sometimes tear when the cervix dilates or the membranes rupture. This can result in life-threatening bleeding in the baby. Even if the blood vessels do not tear, the baby may suffer from lack of oxygen due to pressure on the blood vessels.
