English for Academic Purposes - R. R. Jordan
1997-02-13 English for Academic Purposes provides a comprehensive overview of the field of English for Academic Purposes (EAP) for teachers. It not only looks at study skills, but also at other central concerns of EAP, such as needs analysis, syllabus and course design, methodology and materials, learning styles, tests and exams, and academic style and genre analysis. In addition to general EAP, the author also considers subject-specific language and the production of teaching materials. Throughout, the author adopts a user-friendly approach in which theoretical considerations are balanced with practical experience. Issues are discussed and illustrated, but readers are also encouraged to form their own opinions by means of stimulating introspect and discuss sections at the end of each chapter.

Introducing English for Academic Purposes - Maggie Charles 2015-11-06 Introducing English for Academic Purposes is an accessible and engaging textbook which presents a wide-ranging introduction to the field, covering the global and institutional position of EAP as well as its manifestations in classrooms and research contexts around the world. Each chapter provides: a critical overview introducing readers to theory- and research-informed perspectives; profiles of practice to guide readers in putting theory to use in real world contexts; tasks, reflection exercises and a glossary to help readers consolidate their understanding; an annotated further reading section with links to online resources to enable readers to extend their knowledge. Covering both theoretical and practical issues, Introducing English for Academic Purposes is essential reading for students of applied linguistics, and pre-service and in-service teachers of EAP.

English for Academic Purposes - Paul Thompson 2015-10-05 The analysis of academic
genres and the use of corpus resources, methods and analytical tools are now central to a great deal of research into English for Academic Purposes (EAP). Both genre analysis and corpus investigations have revealed the patterning of academic texts, at the levels of lexicogrammar and discourse, and have led to richer understandings of the variations in such patterning between genres and between disciplines. The thirteen contributions included in this volume address issues in academic discourse studies from a range of perspectives: namely, corpus-based research into EAP at the lexicogrammatical and genre levels (Section 1); intercultural EAP research (Section 2); English as a Lingua Franca in academic communication (Section 3); and the relationships between corpus, genre and pedagogy in EAP, with an emphasis on implications and applications (Section 4). The collection is aimed primarily at teachers, students and researchers of EAP and applied corpus linguistics, but will also interest applied linguists in general. The emphasis of the contributions varies from studies with predominantly linguistic orientations to those focussing on practical applications.

Critical English for Academic Purposes - Sarah Benesch 2001-03-01 Critical English for Academic Purposes: Theory, Politics, and Practice is the first book to combine the theory and practice of two fields: English for academic purposes and critical pedagogy. English for academic purposes (EAP) grounds English language teaching in the cognitive and linguistic demands of academic situations, tailoring instruction to specific rather than general purposes. Critical pedagogy acknowledges students' and teachers' subject-positions, that is, their class, race, gender, and ethnicity, and encourages them to question the status quo. Critical English for academic purposes engages students in the types of activities they are asked to carry out in academic classes while inviting them to question and, in some cases, transform those activities, as well as the conditions from which they arose. It takes into account the real
challenges non-native speakers of English face in their discipline-specific classes while viewing students as active participants who can help shape academic goals and assignments. Critical English for Academic Purposes: Theory, Politics, and Practice: * relates English for academic purposes and critical pedagogy, revealing and problematizing the assumptions of both fields, * provides theoretical and practical responses to academic syllabi and other institutional demands to show that teachers can both meet target demands and take students' subjectivities into account in a climate of negotiation and possibility, * offers "rights analysis" as a critical counterpart to needs analysis, * discusses the politics of "coverage" in lecture classes and proposes alternatives, and * features teaching examples that address balancing the curriculum for gender; building community in an EAP class of students from diverse economic and social backgrounds; students' rights; and organizing students to change unfavorable conditions. This book is intended for undergraduate and graduate courses for preservice and in-service ESL and EAP teachers. It is also a professional book for those interested in critical approaches to teaching and EAP.

**English for Academic Purposes** - Helen Moffett 2014-07-01 English for Academic Purposes will address students in a lively and interactive manner to develop their academic reading and writing skills. Exercises allow plenty of opportunity for practice and self-study.

**English for Academic Purposes (EAP) in Asia** - Indika Liyanage 2014-09-11 The adoption of English as the language of study and scholarship is becoming increasingly common among universities across Asia. But does this adoption of the English language not also mean the adoption of Western approaches to scholarship and knowledge? This most timely and important book critically examines how EAP practitioners can negotiate between Western and Asian academic practices and approaches to knowledge and
scholarship and is essential reading for anyone involved in international education. [Andy Kirkpatrick, Professor in Linguistics, Griffith University]

Corpus Linguistics for English for Academic Purposes - Vander Viana 2021-12-31 This book shows how corpus analyses can enhance students', practitioners' and researchers' knowledge of academic language. The book provides a reader-friendly discussion of the key concepts, practices and research applications of corpus linguistics which are relevant to the EAP community. Corpus Linguistics for English for Academic Purposes is an essential book for EAP students, practitioners and researchers who wish to develop corpus analytical skills to support their learning, teaching and research practice. It is equally important to novice corpus linguists who wish to find out how they can contribute to the ever-expanding area of EAP.

English for Professional and Academic Purposes - Miguel F. Ruiz-Garrido 2010-01 English in academic and professional settings has received great attention over the last 50 years, as its use has become a key asset for anyone interested in improving his/her chances of communicating internationally. However, it still offers rich opportunities for teachers and researchers working on English in specific settings. The aim of English for Professional and Academic Purposes is to offer an overview of several topics within the field of discourse analysis applied to English in academic and professional domains. The book compiles contributions from different origins, ranging from Japan to the USA and several European countries, and covers English as a native, second,
foreign and international language. It also deals with various specialities, including academic writing, business discourse or English for medicine, nursing, maritime industry and science and engineering. This volume is divided into three sections: Discourse Analysis of English for Academic Purposes, Professional English and EPAP Pedagogy, since it was conceived as a contribution to the research on how English is analysed as both the discourse of and for effective communication in academic and professional settings, and how it can be applied to teaching. This manuscript offers some fresh insights for those involved or interested in this field of expertise, in an attempt to shed some light on its latest innovations.

**The Future of Teaching English for Academic Purposes**-Tijen Akşit 2020-12-01 As a result of current global and international forces, teaching English for academic purposes (EAP) is going through the most dynamic period in its rather short history. The internationalization of higher education, English further solidifying its role as the lingua franca every single day, and the increasing number of higher education institutions around the globe opting for instruction in the medium of English (EMI) are all contributing forces behind this book. The text disentangles the conflicting views and beliefs regarding the standards, provision and practices of EAP. Across its chapters, it closely looks at the world of EAP through the lenses of academic practice, learners, curriculum development, program implementation, and teaching and assessment practices. This book will guide all stakeholders of EAP settings to better understand ways in which research and teaching interact, and inform each other from a number of vital and relevant perspectives.

**Linguistic Description in English for Academic Purposes** - Helen Basturkmen 2021-05-31
This volume provides a concise overview of linguistic description in the field of English for Academic Purposes, charting its evolution and categorizing the various strands of research interest. Given the increasing use of English as a lingua franca, there has been a corresponding upsurge into research in EAP. The book synthesizes this research in one single volume and offers brief overviews on key terms and topics in EAP, including academic events and study genres, professional research genres and disciplinary discourses. This volume is key reading for graduate students new to the field as well as established researchers looking to expand...
their knowledge base in EAP. The work highlights the kinds of descriptions of academic English that have resulted from the research, which can be of interest to disciplinary teachers and lecturers, including those in English medium instruction.

**Theory and Concepts of English for Academic Purposes**-Ian Bruce 2011-05-15 This book applies theory and research findings to the design of English for Academic Purposes courses. **University English for Academic Purposes in China**-Xiaofei Rao 2018-07-07 This book uses an in-depth, phenomenological interview approach to explain the generational characteristics of today’s Chinese university youths and the critical dispositions they believe indispensable in acquiring English as an academic language in and outside school settings. By presenting the authentic voices of the recruited participants, the book clarifies how English for academic purposes (EAP), as an emerging global phenomenon and a research-informed practice, enables and empowers them for conscious self-transformation and critical awareness development through language study. The book also explores issues arising in the fields of general English language teaching as well as traditional and critical EAP, and discusses university English language learners’ learning needs and rights. The book further promotes a dynamic and transformative University EAP pedagogy of particularity, practicality, and possibility moving from the oppression of language education to its liberation, and the increasing critical consciousness among the present and future university youths in a time of great social changes.
Making Language Visible in the University - Bee Bond 2020-08-05

This book focuses on the nexus of language, disciplinary content and knowledge communication against the background of the economic, cultural and ideological forces of Higher Education’s current push for internationalisation. It suggests the need for a greater synergy between language and content experts and argues that change needs to be implemented through policy rather than on an ad-hoc basis by individual teachers. It is a call to action for English for Academic Purposes practitioners to find a way out of the silo of their own centres and work to assert influence over the wider context in which they work. The book begins and ends in the practice of teaching, with a focus throughout on understanding the barriers and enablers to that practice within a particular context.

Pronunciation Instruction in English for Academic Purposes - John Hodgetts 2020-09-04

This book examines the pronunciation goals of teachers, course leaders, and learners on a ten-week UK pre-sessional access course, particularly with regard to suprasegmental instruction and target of instruction on how these goals are reflected in pronunciation assessment, and how teacher goals are informed by their attitudes and beliefs. A mixed methods approach, including direct observation and semi-structured interviews, is employed to address the area of enquiry. Results show a lack of clarity of course goals. Although there is a firm emphasis on suprasegmental instruction, in semi-structured interviews, teachers report a lack of clear course goals and guidance. Assessment and practice do not always adhere to a goal of intelligibility, and support for teachers, in terms of the materials and how they might be exploited seems limited. The book concludes with tentative recommendations on how suprasegmental instruction might be facilitated on EAP and other courses.
Speaking for Academic Purposes - Keith S. Folse

The 4 Point series is designed for English language learners whose primary goal is to succeed in an academic setting. Academic English learners need skills-based books that focus on reading, listening, and speaking, as well as the two primary language bases of vocabulary and grammar. The ultimate goal is to help your students improve these skills and earn a 4.0 (GPA). The Introduction to English for Academic Purposes (EAP) level is designed for students in academic programs who need a more general introduction to authentic academic content. The discrete skills volumes are designed for programs and courses that want to more intensively focus on key strategies and authentic academic content in one skill area. Each 4 Point volume covers academic skills while providing reinforcement and systematic recycling of key vocabulary issues and further exposure to grammar issues. These volumes focus very heavily on vocabulary because language learners know that they are way behind their native-speaker counterparts when it comes to vocabulary. Each book highlights key vocabulary items, including individual words, compound words, phrasal verbs, short phrases, idioms, metaphors, collocations and longer set lexical phrases. Speaking for Academic Purposes is an introductory textbook containing English for Academic Purposes content. Each unit includes activities to strengthen a range of speaking skills, notably: understanding classroom discourse, using academic language functions, recognizing signal words and phrases, and synthesizing information. These activities are presented within the context of one field of academic study (Architecture, Marketing, Earth Science, U.S. History, Chemistry, and Fine Arts) per unit. Unique to this speaking text are six videos showing common student interactions. Access to the videos is free. Each unit includes three academic speaking strategies (including one specific to making presentations) and tasks that involve participating in group discussions, interacting with native speakers, and making a presentation. The goal is to provide students with a variety of strategies/tools to master academic
situations in which they need to participate.

**Writing Using Sources for Academic Purposes**-Rosemary Wette 2020-12-29 Writing Using Sources for Academic Purposes: Theory, Research and Practice provides research-based information about key components of source-based writing, and the challenges it presents for novices. **Pedagogies in English for Academic Purposes** - Carole MacDiarmid 2021-07-15 As the delivery of English for Academic Purposes (EAP) continues to expand internationally, so too must the literature available to support teaching. This volume showcases some of the research-informed work in this exciting and complex field, providing insights into EAP pedagogies employed in a diverse range of contexts. Drawing on the work of practitioners and practitioner-researchers, it responds to the repeated calls for a firmer link between theory, research and practice in language teaching, and provides a much-needed focus on pedagogy. From contexts where English is the principal dominant societal language or one of several official languages, to those where English-medium instruction (EMI) is common in higher education as an additional language for students and faculty, the chapters explore a range of geographical contexts, including Brazil, Canada, China, Norway, South Africa, Turkey, the UAE, the UK and the USA. Diversity is also represented in the range of types of EAP provision featured in this volume. Contributions focus on EAP for undergraduate and postgraduate students, from lower to advanced proficiency levels, before and during degree study, and in English for both general and specific academic purposes teaching, with discussion of consequences for on-going teacher education. Pedagogic responses and innovations to these varied contexts and needs are illustrated in the range of contributions, which provide insights into current practices in EAP globally.

The English for Academic Purposes Practitioner - Alex Ding 2017 This book contextualizes the field of English for Academic Purposes (EAP), with a particular focus on the professional and academic identity and role of the EAP practitioner. The authors examine previously neglected areas such as the socio-economic, academic and employment contexts within which EAP practitioners function. In doing so, they develop a better understanding of the roles, expectations and constraints that arise from these contexts, which in turn shape professional practice and the identity of the practitioner. As EAP is emerging as an academic discipline with a growing body of published research, this book will appeal to trainee and established practitioners, along with researchers and students of linguistics and education. Alex Ding is Lecturer in English for Academic Purposes and Director of the Centre for Excellence in Language Teaching at the University of Leeds, UK. He leads school-wide
projects in language education scholarship, as well as teaching English for Academic Purposes and MA modules. He has also supervised and examined PhD students, and co-led the development of an innovative MA in EAP. Ian Bruce is Senior Lecturer in Applied Linguistics at the University of Waikato, New Zealand, where he also teaches on the MA degree of the same name. His research interests include the application of genre theory to English for Academic Purposes courses, and to academic writing instruction. He is closely involved with the British Association of Lecturers in English for Academic Purposes (BALEAP), and has contributed to the development of their teacher competency framework.

Teaching and Learning English for Academic Purposes - Lap Tuen Wong 2017

In the era of globalisation, English has become the world language of research and publication in academia. Apart from English-speaking countries, a plethora of non-English speaking countries use English as a major language in higher education. The discipline of English for Academic Purposes (EAP) in the field of English language education has become increasingly important. With the rapid growth of students using English for tertiary studies in both native and non-native contexts, it is essential to examine the teaching and learning of EAP in a research perspective, globally, in order to reinforce students English language proficiency and help them achieve successful academic communication in the English language learning environment. Reviewing practices in different EAP classrooms can help readers reflect on the effectiveness of current classroom practices and teaching methodologies. The purpose of this book is to provide insightful information on current research and practices in EAP education across different contexts. This book also explores the teaching and learning of English academic discourse in an international perspective so that readers can gain a comprehensive and in-depth understanding of how EAP education is practised in different parts of the world. The first part of the book, Current Research on Teaching and Learning English for Academic Purposes, focuses on empirical educational research in EAP and its implications for future pedagogical development. The second part of the book, Practices of Teaching and Learning English for Academic Purposes, is more closely related to the practical issues of course design and delivery in EAP classrooms. This edited volume is designed for undergraduate and postgraduate students on applied linguistics and English language programmes, EAP practitioners, educational
researchers and policy-makers. The chapters will bring readers to the forefront of EAP education by exploring current EAP research and practices in both English-speaking and non-English speaking countries. It is a useful reference work for future research development on curriculum planning, material development and teaching methodology in English language classrooms. Last, but by no means least, the editors would like to extend their heart-felt appreciation to Nova Science Publishers and all the contributors, without whose input this project would not have been realised. A debt of gratitude is also owed to Dr Leo Hoye for his professional advice concerning this edited volume.

English for Research Publication Purposes-
Karen Englander 2019-02-28 Scholars who use English as an additional language confront challenges when disseminating their research in the global market of knowledge production dominated by English. English for Research Publication Purposes analyses the experiences and practices of these scholars across the globe and presents "critical plurilingual pedagogies" as a theoretically and empirically informed means of supporting them. This book: • Draws on an empirical study of a Latin American university’s effort to mount a course that provides support to emerging and established scholars who use English as an additional language; • Brings theoretically informed discussions of critical pedagogies, plurilingualism and identity affirmation to better serve plurilingual scholars who seek to publish their research in English-language journals; • Provides examples of classroom activities that can be adapted and adopted to local contexts and realities in a curriculum based on critical plurilingual pedagogies; • Proposes future directions for research into the internationally urgent, growing concerns of global scholars who produce English-medium academic knowledge for the world stage. Incisive and cutting-edge, English for Research Publication Purposes will be key reading for academics and upper-level students working in the areas of ESP, EAP, ERPP, and
Towards a New Paradigm for English Language Teaching

Hajime Terauchi
2019-11-20

This book proposes a new paradigm for English language teaching based on concepts from English for Specific Purposes (ESP) research and applications as well as from growing evidence relating pattern recognition to language learning ability. The contributors to the volume argue that learners should not try to become proficient all-around users of ‘idealistic native-like’ English, but instead should be realistic about what they need to acquire and how to go about achieving their specific goals. The book discusses the present situation by describing the status quo of English language education in Japan, taking into consideration recent trends of CLIL (content and language integrated learning), EMI (English medium instruction), and TBLT (task-based language teaching) as well as the work done on the Common European Framework of Reference for Languages (CEFR). It introduces new movements in ESP in Japan and in other Asian regions, covering topics ranging from genre analysis to corpus linguistics, and presents application examples of ESP practice in a range of educational situations in Japan from the graduate school level to elementary and middle school contexts. It also offers readers application examples of ESP practice in a range of business settings and expands the discussion to the global sphere where EAP and ESP are gaining importance as the number of ELF (English as a Lingua Franca) speakers continue to increase. The book will be of great interest to academics, researchers, and post-graduate students working in the fields of EFL and ESL.
