These luminous, entertaining essays travel both the vastness of the cosmos and the intimacy of the human mind, posing such fascinating questions as how did the universe originate and how will it end, and how can we meld science and compassion to meet the challenges of the coming century? Here, too, is a rare, private glimpse of Sagan's thoughts about love, death, and God as he struggled with fatal disease. related service interruptions might occur and strategically position crews at these locations to quicken recovery response time. Offering a service that customers expect to be available at all times and that they will miss only when the lights go out, FPL focuses its energies on matching customer perceptions with potential need. Deluxe Corporation, America’s highly successful check printer, regularly exceeds its customers’ expectations by shipping nearly 95% of all orders by the day after the orders were received. Deluxe even put U.S. Postal Service stations inside its plants to speed up delivery time. Customer expectations change over time. To anticipate these changes, Metropolitan Life Insurance Company regularly monitors the expectations and perceptions of their customers, using focus group interviews and the authors’ 22-item generic SERVQUAL questionnaire, which is customized by adding questions covering specific aspects of service they wish to track. The authors’ groundbreaking model, which tracks the five attributes of quality service -- reliability, empathy, assurance, responsiveness, and tangibles -- goes right to the heart of the tendency to overpromise. By comparing customer perceptions with expectations, the model provides marketing managers with a two-part measure of perceived quality that, for the first time, enables them to segment a market into groups with different service expectations.

Wounded in the House of His Friends is really a summary volume, in The Return of the Latter Rain series—Vol. 1 being first published in 2010. The RLR manuscript represented a simple, yet unique compilation of Ellen White statements on the subject of the latter rain and the loud cry, placed in chronological order. Originally, the manuscript’s main objective was to address the core questions surrounding the 1888 episode that have plagued Adventism since the 1890s: Did in fact the Lord send the beginning of the latter rain and the loud cry in 1888—and were they accepted? As the RLR manuscript continued to develop it began addressing many other related topics and issues. As a consequence, the first volume drawn from the original manuscript only covered the years 1844 to 1891. Work will continue on the series, covering in greater depth the many of the other related topics and issues that surround the 1888 Minneapolis General Conference and its aftermath.

(From the Introduction)

The Return of the Latter Rain (volume 1, 3rd Edition) - Ron Duffield 2014 The Return of the Latter Rain is a historical review of the Seventh-day Adventist history from 1844 through 1891, especially in light of the 1888 Minneapolis General Conference and the beginning of the latter rain and the loud cry. Ellen White stated: “The Lord in His great mercy sent a most precious message to His people through Elders Waggoner and Jones. This message was to bring more prominently before the world the uplifted Saviour, the sacrifice for the sins of the whole world. It presented justification through faith in the Surety, it invited the people to receive the righteousness of Christ, which is made manifest in obedience to all the commandments of God. Many had lost sight of Jesus. They needed to have their eyes directed to His divine person, His merits, and His changeless love for the human family. . . . This is the message that God commanded to be given to the world. It is the third angel’s message, which is to be proclaimed with a loud voice, and attended with the outpouring of His Spirit in a large measure” (1888 Materials, pp. 1336-1337). Sadly, however, Ellen White also stated: “An unwillingness to yield up preconceived opinions, and to accept this truth, lay at the foundation of a large share of the opposition manifested at that time” (1909 September 27, Echoes, “In the Valley”, 11). This book presents a detailed account and historical review of the Seventh-day Adventist history from 1844 through 1891, especially in light of the 1888 Minneapolis General Conference and the beginning of the latter rain and the loud cry. Ellen White stated: “The Lord in His great mercy sent a most precious message to His people through Elders Waggoner and Jones. This message was to bring more prominently before the world the uplifted Saviour, the sacrifice for the sins of the whole world. It presented justification through faith in the Surety; it invited the people to receive the righteousness of Christ, which is made manifest in obedience to all the commandments of God. Many had lost sight of Jesus. They needed to have their eyes directed to His divine person, His merits, and His changeless love for the human family. . . . This is the message that God commanded to be given to the world. It is the third angel’s message, which is to be proclaimed with a loud voice, and attended with the outpouring of His Spirit in a large measure” (1888 Materials, p. 1575). Thankfully though, the same latter rain is about to return!

The Oxford History of Board Games—David Parlett 1999 For thousands of years, people have been playing attacks, captures, chases, and conquests — on a variety of different boards designed for an astonishing diversity of games. Today the compelling mix of strategy, skill, and chance is as strong as ever; new board games are invented almost daily, while the perennial favourites continue to attract new devotees and reveal new possibilities. The Oxford History of Board Games investigates the principles of board games throughout the ages and across the world, exploring the fascinating similarities and differences that give each its unique appeal, and drawing out the significance of game-playing as a central part of human experience — as vital to a culture as its music, dance, and tales. Beautifully illustrated and with diagrams showing the finer points of the games, this is a fascinating and accessible guide to a richly rewarding subject. In his trade-mark accessible, entertaining style, David Parlett looks at the different families of games: games based on configuration or connection, races or chases, wars or hunts, capture or blockade. He focuses mainly on traditional games, the folk entertainments that have grown up organically throughout the centuries, and which exhibit endless local variations, although he discusses also the commercial products that have tried, with varying degrees of success, to match their astonishing popularity. This is not primarily a how-to book, although the rules and strategies of certain games are discussed in detail, neither does it offer sure-fire tips for success, although with a fuller understanding of a game the reader will undoubtedly become a better-informed, if not better, player. Rather, it’s an affectionate and authoritative survey of one of the most familiar parts of our cultural history, which has until now been inexplicably neglected.
