Michael Allen locates justification within the wider context of the gospel, allowing for more thoughtful engagement with the Bible, historical theology, and the life of the church. Allen considers some of the liveliest recent debates as well as some overlooked connections within the wider orbit of Christian theology. He provides a historically informed, ecumenically minded defense of orthodox theology, analyzing what must be maintained and what should be reconfigured from the vantage point of systematic theology. The book exemplifies the practice of theological interpretation of Scripture and demonstrates justification’s relevance for ongoing issues of faith and practice.

Brotherly Love - Michael Allen 2020-10 Dr. Michael Allen and Gilbert D. Allen come from extreme poverty. Their parents battled drug addiction. Their siblings were homeless and displaced at various points during their childhood. Gilbert is five years younger than Michael and the youngest. Gilbert was living between multiple places when Michael went to college. Michael had just finished football practice and a team dinner when he received a call from his brother Gilbert in the fall. Gilbert said there was a void he was feeling. It was a hard conversation for Michael; his brother was sobbing. Michael's college football team was having a magical championship season winning but his baby brother was hurting. Ultimately Michael consoled his brother, connected to his brother. Still, it got worse. Michael decided to go get his brother and take him to college. Gilbert finished high school while Michael was in college. Gilbert was reading at the fourth-grade level as a sophomore in high school. They had to navigate his readiness (in the northwestern part of Indiana at a majority white school). There was segregation within the community. Very few people thought Gilbert would finish high school now he has his master's degree in social work and is working on a doctorate in counseling, community care, and trauma. Gilbert works as a social work supervisor; Michael has a doctorate in educational leadership and is an elementary school principal. This book is about bonds especially their bond as brothers, and the importance of mentors, related or not. This book is a glimpse into the collective political correctness eroding genuine connections. It also is much about love, fond dreams, and what it means to give back to marginalized people. Their goals are to encourage people to believe and hope. They give insight, perspective, and share their journey within these pages. "It would be disrespectful to the journey if we don't give back," Michael said. "We have lessons to give back to humanity." The voices of Gilbert and Michael make it clear society is ill-equipped. It's a beautiful struggle. Diversity is good. They hope you’ll read this-and participate by reaching out to someone.

e-Learning and the Science of Instruction - Ruth C. Clark 2016-02-19 The essential e-learning design manual, updated with the latest research, design principles, and examples e-Learning and the Science of Instruction is the ultimate handbook for evidence-based e-learning design. Since the first edition of this book, e-learning has grown to account for at least 40% of all training delivery media. However, digital courses often fail to reach their potential for learning effectiveness and efficiency. This guide provides research-based guidelines on how best to present content with text, graphics, and audio as well as the conditions under which those guidelines are most effective. This updated fourth edition describes the guidelines, psychology, and applications for ways to improve learning through personalization techniques, coherence, animations, and a new chapter on evidence-based game design. The chapter on the Cognitive Theory of Multimedia Learning introduces three forms of cognitive load which are revisited throughout each chapter as the psychological basis for chapter principles. A new chapter on engagement in learning lays the groundwork for in-depth reviews of how to leverage worked examples, practice, online collaboration, and learner control to optimize learning. The updated instructor's materials include a syllabus, assignments, storyboard projects, and test items that you can adapt to your own course schedule and students. Co-authored by the most productive instructional research scientist in the world, Dr. Richard E. Mayer, this book distills copious e-learning research into a practical manual for improving learning through optimal design and delivery. Get up to date on the latest e-learning research Adopt best practices for communicating information effectively Use evidence-based techniques to engage your learners Replace popular instructional ideas, such as learning styles with evidence-based guidelines Apply evidence-based design techniques to optimize learning games e-Learning continues to grow as an alternative or adjunct to the classroom, and correspondingly, has become a focus among researchers in learning-related fields. New findings from research laboratories can inform the design and development of e-learning. However, much of this research published in technical journals is inaccessible to those who actually design e-learning material. By collecting the latest evidence into a single volume and translating the theoretical into the practical, e-Learning and the Science of Instruction has become an essential resource for consumers and designers of multimedia learning.

Winterhawk’s Land—Michael Dante Michael Dante played the title role in Winterhawk (1975), a Western about a legendary Blackfoot Chief’s character and his principles. In this novella sequel, he pens an ageless saga about ruthless railroad executives trying to assassinate him in order to build their railroad directly through his territory, taking the Blackfoot land without provocation. Winterhawk and his tribe remain strong as long as they can, to protect the land of their people, the land they call home, before the invasion of progress imposes itself on America. This inspiring story of a brave man, who stands up to and fight against those who have their own agenda for his land, evokes the nostalgic atmosphere of Western series that Dante frequently appeared in during American television’s Golden Era, such as Death Valley Days, The Big Valley, Daniel Boone, Custer, The Texan, Bonanza, Maverick, and Cheyenne.
