Nonesuch Place-T. Tyler Potterfield 2009-06-02 Intentionally built on the fall line where the Piedmont uplands meet the Tidewater region, Richmond has always been a city defined by the land. From the time settlers built a city on rugged terrain overlooking the James River, the people have changed the land and been changed by it. Few know this better than T. Tyler Potterfield, a planner with the City of Richmond Department of Community Development. Whether considering the many roles of the “romantic, wild and beautiful” James River through the centuries, describing the rationale for the location of the Virginia State Capitol on Shockoe Hill or relating the struggle to reclaim green space as industrialization and urban growth threatened to remove nature from the city, Potterfield weaves a tale as ordered as the gridded streets of Richmond and just as rich in history.

The Royal Nonesuch-Glasgow Phillips 2007-12-01 "The hipster cultural economy of the dot-com boom is skewered in this hilarious coming-of-age memoir" (Publishers Weekly, starred review). Glasgow Phillips published his debut novel Tuscaloosa at the tender age of twenty-four. The results were disastrous: encouraging reviews, translations, a paperback sale, a film option, and a Stegner Fellowship at Stanford. But over the next two years, as Phillips’s second novel unraveled and freelance journalism assignments ended in humiliation, a horrible, secret thought took hold in him: perhaps, just possibly, whatever talent he had was of the kind that would never be more than promise. Washed up as a “real” writer before he was thirty, Phillips went to Los Angeles and formed a company with his best childhood friend Jason McHugh, independent producer of Cannibal! The Musical and Orgazmo. The Royal Nonesuch is the story of Phillips’s rollercoaster ride through the twisted world of underground Hollywood and the funhouse of the Internet during the boom. Phillips builds a hilarious and poignant memoir, in the tradition of Augusten Burroughs and Sean Wilsey, from tales of promise and failure, family and madness, friendship and redemption, fame and infamy, and good old-fashioned hustling. It is a remarkable book; a brilliant portrait of a generation in all its foolish glory. "The best book I’ve read about being in your twenties and trying to figure out what to do with your life . . . Something this funny shouldn’t also be this profound." —Matt Stone, cocreator of South Park

Georgette Heyer, History and Historical Fiction—Samantha J. Rayner 2021-02-25 The Nonesuch is the name of one of Georgette Heyer’s most famous novels. It means a person or thing without equal, and Georgette Heyer is certainly that. Her historical works inspire a fiercely loyal, international readership and are championed by literary figures such as A. S. Byatt and Stephen Fry. Georgette Heyer, History, and Historical Fiction brings together an eclectic range of chapters from scholars all over the world to explore the contexts of Heyer’s career. Divided into four parts - gender; genre; sources; and circulation and reception - the volume draws on scholarship on Heyer and her contemporaries to show how her work sits in a chain of influence, and why it remains pertinent to current conversations on books and publishing in the twenty-first century. Heyer’s impact on science fiction is accounted for, as are the milieu she was writing in, the many subsequent works that owe Heyer’s writing a debt, and new methods for analysing these enduring books. From the gothic to data science, there is something for everyone in this volume; a celebration of Heyer’s ‘nonesuch’ status amongst historical novelists, proving that she and her contemporary women writers deserve to be read (and studied) as more than just guilty pleasures.

Regional and Specific Deposits - Gerard Meurant 2012-12-02 Handbook of Strata-Bound and Stratiform Ore Deposits, Volume 9: Regional and Specific Deposits focuses on the processes, methodologies, principles, and approaches involved in the identification of regional and specific ore deposits. The selection first elaborates on the timing of mineralization in strataform copper deposits, oolitic iron formations, and metalliciferous deep-sea sediments. Discussion focuses on marine distribution and nature of surface and near-surface deposits, structural setting and associated deposits, principal types of deep-sea metal-enriched sediments, chronological development of oolitic-inland-sea iron formation, and complementary sources and transport mechanisms. The text then tackles heavy-metal accumulation in lentic sediments, trace metals in fresh waters, nature and origin of Archean strata-bound volcanic-associated nickel-iron-copper sulphide deposits, and the significance of pyritic black shales in the genesis of Archean nickel sulphide deposits. Topics include lithological associations, oxidation and supergene alteration of ores, temporal and tectonic setting, dissolved metal concentrations in large freshwater systems, and transport phases of heavy metals in river water. The publication examines strata-bound tin deposits, geology of the Pine Point lead-zinc district, and genesis of the Rammeilsberg ore deposit near Goslar/Upper Harz in the Federal Republic of Germany. The selection is a valuable reference for researchers wanting to explore ore deposits.
