Paul Kagame and Rwanda-Colin M. Warug 1993-07 It's about time, a million people lay dead, and the small African country lay in ruins. Rwanda stirred from the brink guided by rulers determined to rebuild the country on their own terms, rather than those of a previously indifferent international community. Paul Kagame, Rwanda's first democratically elected president, embodies the new Rwandan political philosophy. Young, unconventional, not without flaws and critics—Kagame is key to understanding Rwanda's transition from a country that had known only fear, division and clan-based nepotism for many years to an exceptional African state built upon traditional order and values. Paul Kagame's life—from exile as a political refugee to respected and ruthless, to President-who is he? In this book, we provide the answer to this question. We present an example of leadership that has transformed the world, and with it, the history of Rwanda.
